

A MOD FOR COMBAT MISSION FORTRESS ITALY

## StuG F8

## Aris StuG F8

The Sturmgeschütz III Ausf F/8 was the second version of the StuG III to carry the longer 7.5cm StuK40 L/48 gun, and differed from the Ausf F in the use of the hull from the Panzer III Ausf J (also known as the 8.Serie ZW). All earlier models of the StuG had used the same form of hull as the original Ausf A.

The Panzer-Regiment ""HG" consisted of two Abteilungen with a total of 60 Panzer III's and Panzer IV's and an additional Abteilung of Stugs. On Sicily the Panzer-Division "HG" also had 17 Tiger I's from the Heer's 2./sPzAbt 504 assigned to them.

Hermann Goering division had in strength, as at 10 July 1943, 20 Stug III F/8 and G, and 9 Stuh 42

# INSTRUCTIONS

Go inside the Data folder and create a new folder called "Z". Because "Z" comes after the names of the standard game files ("Version XXX") you are guaranteed that any mods you put into the "Z" folder will be loaded and used by Combat Mission.

Unzip and drop "Aris StuG F8" to Z.

**Photoreal samples of mud, a LOT OF dust, stains and Hi-Res Photoshop brushes were used to mod this vehicle. 4 Decal Options.**

## IMPORTANT:

Due to the lack of references for these vehicles in Sicily, I also used some markings from Anzio, Gothic Line, etc...
