

A MOD FOR COMBAT MISSION FORTRESS ITALY

## Horizon and Cloud Mod

## Aris Horizon and Clouds Mod

These textures will modify all the horizons in the game as well as the clouds in clear, non-rainy days. They are made with real photos from Sicilian Landscapes and HD cirrus, broken clouds, appropriately masked and blended to cover the 360° spectrum.

Horizons cover all weather conditions, clear, hazy and thick haze, as well as rainy and foggy days. Overcast clouds were untouched as I like the stock ones myself.

# INSTRUCTIONS

Go inside the Data folder and create a new folder called "Z". Because "Z" comes after the names of the standard game files ("Version XXX") you are guaranteed that any mods you put into the "Z" folder will be loaded and used by Combat Mission.

Unzip and drop "Aris Horizon and Clouds Mod" to Z.

## IMPORTANT:

There is a known BUG in the stock textures that is impossible to fix: if you look closely at exact NW orientation you will notice it. It's a bad seam blend, not fixable by this humble modder. Hope you like these textures anyway.
