## INSTRUCTIONS:

Go inside the Data folder and create a new folder called "Z".  
Because "Z" comes after the names of the standard game files ("Version XXX") you are guaranteed that any mods you put into the "Z" folder will be loaded and used by Combat Mission.

Inside the ZIP you will find a folder named "Decals" which contains subfolders for each Decal Option and a Light Weathering Option folder.

Drop "Aris Universal Carrier Mod" (and/or "Aris Light Weathering UC" to the Z folder and add decals to these folders, they are already appropriately numbered.
